

How to install the utilities on Linux

ExifTool

```
$ sudo dnf check-update
$ sudo dnf install dnf-utils
$ sudo dnf install perl-Image-ExifTool
$ which exiftool
/usr/bin/exiftool
```

libraw with dcraw

```
$ sudo dnf --enablerepo=devel install LibRaw
```

or

```
$ sudo dnf install LibRaw
```

```
$ dcraw
bash: dcraw: command not found...
Install package 'dcraw' to provide command 'dcraw'? [N/y] y
$ which dcraw
/usr/bin/dcraw
```

ffmpeg

(if not already installed)

```
$ sudo dnf -y install
https://dl.fedoraproject.org/pub/epel/epel-release-latest-9.noarch.rpm
$ sudo dnf -y install
https://dl.fedoraproject.org/pub/epel/epel-next-release-latest-9.noarch.rpm
$ sudo dnf config-manager --enable epel,epel-next,crb
$ sudo dnf install -y
https://download1.rpmfusion.org/free/el/rpmfusion-free-release-9.noarch.rpm
$ sudo dnf install -y
https://download1.rpmfusion.org/nonfree/el/rpmfusion-nonfree-release-9.noarch.rpm
$ sudo dnf -y install ffmpeg
$ rpm -qa ffmpeg
ffmpeg-5.1.1-2.el9.x86_64
$ which ffmpeg
/usr/bin/ffmpeg
```
