

How to install the utilities on Windows

Exiftool

- Download from <https://exiftool.org/> or use the zip file on the .iso
- Unzip
- Rename .exe to 'exiftool.exe'
- Drag the folder into 'Program Files'

dcraw or libraw

dcraw

Using dcraw is the simplest.

- Download from <https://en.softonic.com/download/dcraw/windows/post-download?dt=internalDownload&ex=RAMP-3406.2&rex=true>
- Rename the downloaded file to 'dcraw.exe'.

or

- Download from <https://www.easyhdr.com/download/dcraw/>

then

- Create folder 'dcraw' inside 'Program Files'
- Drag 'dcraw.exe' into that new folder.

Libraw

- Download from: <https://www.libraw.org/data/LibRaw-0.21.4-Win64.zip> or use the zip file on the .iso
- Unzip
- Rename the folder 'LibRaw-x.x.x' to 'libraw'
- Drag it inside the 'c:\program files\' folder.

ffmpeg

- Download from <https://www.gyan.dev/ffmpeg/builds/#release-builds> or use the zip file on the .iso
- Unzip
- Rename the folder to 'ffmpeg'
- Drag the folder into 'c:\program files'
